

## Home Ec Skill-a-Thon Contest Logistics Overview

The written quiz will be taken on Monday evening with all other tests.

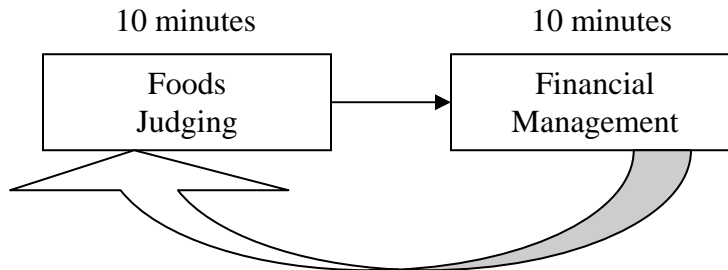

On the day of the event, timing will run as follows:

Orientation – review of expectations and rules; division of participants into three small groups.

ID Classes – All ID classes will be completed first. Groups will rotate through the three classes. There will be 10 minutes at each class.

Once all ID classes are complete, we will move to judging and financial management. Again, groups will rotate through the two stations, three being classes with one station as consumer reasons.

Once all judging and financial management classes are completed, we will begin the Life Skills Team Activity. Counties will draw for order. If you have individuals participating, they will be finished at this time. All teams must complete the team activity. Each team will have 20 minutes to complete three scenarios. The team will choose their favorite scenario and give a 5 minute presentation to a set of judges. Please review scenario and presentation score sheets. The team drawing #1 will be taken to a prep area. Ten minutes later, the team drawing #2 will be taken to a separate prep area. Ten minutes later, team #1 will have had 20 minutes in the prep area and will go into see the judges. Team #3 will enter the prep area. This process will continue until all teams have had 20 minutes to answer the scenarios and 5 minutes in front of the judges. Only the judges will be present for the presentations.
