

### Unit 3: Handwashing Scenario Worksheet

Online Food Safety Training for New Mexico Food Manufacturing Employees

Good Manufacturing Practices: Personnel

---

After this lesson, the learner will be able to:

- Identify if handwashing is needed before starting or continuing to work.
- Identify if gloves are being used correctly.

This worksheet will help you show your understanding of handwashing and glove usage. Please read each situation below and decide if the person followed correct handwashing and glove procedures. Please circle yes or no.

| Scenarios  | Yes/No   |
|--|----------|
| 1. John finished eating a sandwich he brought from home for lunch. He clocked back in and started sorting food packages.   | Yes / No |
| 2. Maria was handling raw chicken when the bell rang for lunch. She disposed of her gloves in the designated trashcan and washed her hands at the handwashing station before going to the lunchroom.   | Yes / No |
| 3. Beto sneezed into his gloves. He disposed of his gloves in the trashcan, washed his hands for 20 seconds, and then dried his hands completely with a paper towel. He then put on new gloves and returned to work.   | Yes / No |
| 4. Suzie was running late from lunch. She washed her hands for 7 seconds, and half dried her hands with paper towels. She put some gloves on and went back to work.  | Yes / No |
| 5. Luis had just come from walking outside during his break. He noticed his arm was very itchy because a small thorn was stuck to his shirt. He removed it and scratched his itch. Before returning to work, he washed his hands for 20 seconds, making sure to get under his nails. | Yes / No |
